WR4GD Rankings

WR4GD Rankings

The World Ranking for Golfers with Disability (WR4GD) is administered by the USGA and R&A under the name of WAGR. According to the players golf handicap, they will be ranked under Gross, Net or Stableford.

Only players with a WR4GD pass can be ranked with WR4GD.

[View Rankings](#)

To participate in an EDGA badged event, a WR4GD or a non-ranked ACCESS pass will be required. These passes are administered and issued by the EDGA medical team.

Dear Emiel

Thank you for submitting your application for an EDGA pass. Having looked carefully at your application, I can confirm that you are eligible for an [EDGA Access Pass](#) and I have upgraded your player status accordingly.

With an ACCESS pass, you will be able to enter most of the EDGA/WR4GD ACCESS badged events but you will NOT be able to earn world ranking points which are administered by WAGR. You can view a full list of EDGA badged events by clicking the following link: www.edgagolf.com/events

I have also indicated on your record that you would like to apply for a WR4GD pass. To obtain an EDGA WR4GD pass, you will have to be assessed by an EDGA approved eligibility assessor which usually takes place at an EDGA badged golf event. Please be aware that if you travel to an EDGA WR4GD badged golf event and are deemed non-eligible then you may be refused permission to enter the tournament. It's also possible for you to travel at your own expense to a pre-arranged appointment with an EDGA approved eligibility assessor. You'll find a full list of EDGA approved eligibility assessors via this link: www.edgagolf.com/team

Normal Range

- Full flexion = 150°
- Full extension = 50°
- Full external rotation = 60°
- Full internal rotation = 60°
- Full abduction = 180°
- Full adduction = 60°

Eligibility criteria for WR4GD Pass

Range of motion in either shoulder is:

- less than 30° adduction or abduction
- less than 20° flexion
- less than 45° rotation

NB: Impaired extension does not qualify.

Strength below Grade 3 on resisted abduction, adduction, external rotation or flexion, will be eligible.

At Grade 3, the weight of the extremity against gravity must be overcome through full range of available motion and is therefore not eligible.
